

Dominion Events

Green Policy for More Sustainable Events

Dominion Events carries through the ethos and principles in relation to the environment that the Dominion Theatre has been practising since the development of its Green Policy in 2005. In 2006 the Dominion Theatre was awarded the 'Green Mile' Award by the Mayor of London.

Where possible and appropriate we select suppliers and products which take the same care and interest in our environment that we do.

Marketing Materials:

- Our leaflets are printed on recycled paper with environmentally friendly inks wherever possible.
- We focus on internet based marketing and send confirmations and communications by email where ever possible.

Products:

- We purchase fair-trade catering products where possible. Our Coffee, Black Tea and Sugar are all Fairtrade.
- We purchase catering products from local businesses and collect these ourselves on foot. Where we purchase items for delivery we try to choose companies as locally as possible.
- We try to use disposable items as little as possible, instead we use china and glass items and have a AAA rated dishwasher.
- Our flipcharts are made from recycled paper and we choose other stationery items from recycled sources wherever possible.

Recycling:

- We recycle paper, glass and plastics as per the Dominion's recycling scheme.
- Very little food goes to waste as we invite our staff to help themselves after the event.
- We encourage all our clients to recycle their waste. All waste collected by our cleaners and staff after events is recycled.
